GENERAL NOTES:

1. Detail is derived from ASTM C-754 Standard Specification for Installation of Steel Framing Members to Receive Screw-Attached Gypsum Panel Products.
2. Install resilient channel with mounting flange down.
3. Install with slotted holes over the framing members.
5. Detail intended for interior nonstructural applications.
6. Stud depth, spacing and thickness based on height of wall and design load. Consult SFIA Technical Guide for Cold-Formed Steel Framing Products for limiting heights.
7. Finish gypsum panel joints with appropriate joint finish system.
8. Gypsum panels type and thickness as required by required performance.

DISCLAIMER: This detail must not be used without a complete evaluation by the owner’s design professional to verify validity of the design.
